Now you can enjoy both precision and efficiency in 27 ga handheld cutter with the Bi-Blade® dual-port difference. Its double-edge blade design effectively doubles the cut rate while allowing a continuous open port. You can now take advantage of all the Benefits of Small-Gauge instrumentation using a high cut rate.

- Minimally invasive: reduced surgical trauma (1,2,3)
- Precision: access to small tissue planes (4,5)
- Safety profile (1,2,6) with potentially decreased risk of VR traction (7)
