# CORNEA PROTECT

HPMC 2%

## Sustained corneal hydration

that lets you stay  
focused on the surgery

Up to  
20 min

**BAUSCH+LOMB**

See better. Live better.

# Unique single-dose unit

## Surprisingly simple

CORNEA PROTECT®

is a viscoelastic substance,  
developed to facilitate the surgery.

# Optimizes the process of ophthalmic procedures

Lasts for up to 20 min

1 drop continuously hydrates the cornea for the average duration of a cataract procedure.<sup>1</sup>

## Surgery with less interruption

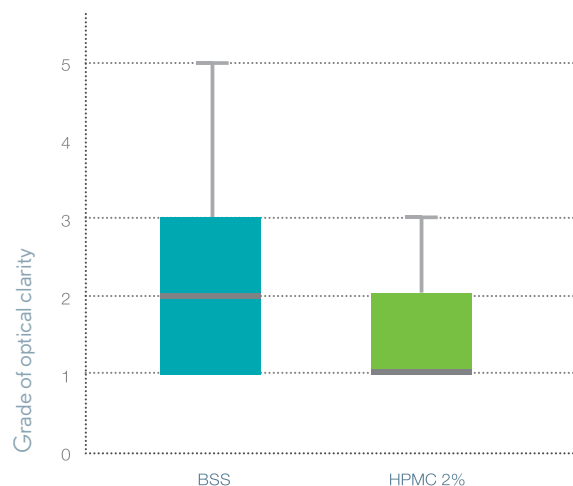

Compared to BSS (Balanced Salt Solution), median application frequency was 10 times less with CORNEA PROTECT® (n=101; p>0.001).<sup>2</sup>

# Enhanced view with CORNEA PROTECT®

Greater clarity

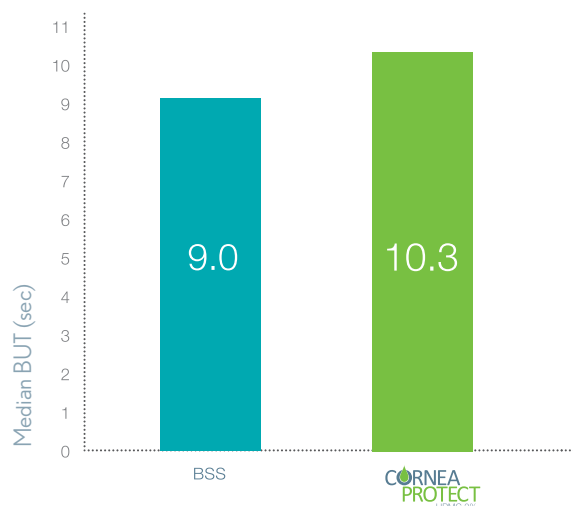

Significantly enhanced optical clarity with CORNEA PROTECT® compared to BSS (median grade 1.0 vs 2.0; p=0.03).<sup>2</sup>

Optical Clarity was subjectively assessed intraoperatively (scale:1=excellent to 5=poor).

## Mean breakup time (BUT) after the surgery

Mean BUT was slightly higher with CORNEA PROTECT®, although not statistically significant.<sup>2</sup>
